TREND HUB

With over 10 years of experience, Suda, the unique Textile Creativity Hub within the industry, had an exclusive space at Emitex 2025.

Completely made up of fabrics and designs from the suppliers participating in the exhibition, the hub presented the latest textile industry trends, color projections, and all forecasts for the SS25/26 season.

DESIGN POINT

Emerging Argentine designers and artists were the protagonists of this space, which focused on design as an innovation strategy.

Ayelén Carrete, Bruma, Inés Larralde, and Moca Textil showcased their exclusive prints and the tools they use in their creation.

SUSTAINABLE INNOVATION

LYCRA® EcoMade bio-derived fiber: The first generation of LYCRA® fiber made from corn-based raw material, reducing the fiber's carbon footprint by 44%.

DFAC Blanks, by T&N Platex: A 100% traceable and Argentine proposal, from cotton to manufacturing, using combed cotton certified by Responsible Argentine Cotton (ARA).

Ecological elastane solutions, by CREORA: Regen Spandex with 100% recycled polymers from textile waste; and Regen Bio-Based, which uses sugarcane.

SureColor G6070 DTFilm, by Epson: New high-quality printer with nozzle verification technology that reduces maintenance and optimizes production times.

TIMNA, CLADD denim fabrics: Made in a plant with unique ozone technology in Latin America. It improves finishing and reduces the use of chemicals, energy, water, and CO2 emissions.
